

# Synagogue Workshop

What we learnt and enjoyed.

**FIRS** NOV 18, 2021 11:13AM

**In the synagogue there were glass stained windows and I could see a moon and a sun. He also told us about the internal light.**

**We got to see the prayer mat.**

**The Rabbi read some of the Torah to us and I really enjoyed the way he read it.**

**I enjoyed that we were still able to see inside a synagogue even though we couldn't go and actually visit it.**

**I enjoyed seeing the Hebrew writing.**

**We learnt that there is a Jewish festival every month.**

**The Rabbi showed us inside the synagogue.**

**I learnt that you can't touch the Torah or scrolls with your fingers because the oil would smudge the writing. Instead you have to use a yad.**

**The Rabbi explained what the scrolls and Torah are used for and why they are important.**

**I liked the zoom system he had built - it was very good. He could choose what he wanted to show us, zoom in and out! And he made it all by himself.**

**I liked it when the Rabbi answered our questions.**
